Yes. There Is A Difference...
With Indiana's Largest Pool CompanySM

Excellent Efficiency. Smooth Operations. Reliable Service.

Pools of Fun asked Van Ausdall & Farrar to help with their need for consistent IT service for all five of their store locations. Now, each store has reliable connectivity and can give each client outstanding customer service.

OBJECTIVE

Increase uptime and network reliability.

STRATEGY

Upgrade equipment and hardware to reflect store needs.

RESULTS

Consistent IT quality and decreased downtime for each store location.

"We have come to rely on Van Ausdall & Farrar for all of our equipment technology needs. They have been very easy to work with, and have made our lives easier through their services."

THE COMPANY

Since 1981, Pools of Fun has focused on living our “people first” policy. We are Indiana’s largest pool company and offer an extensive range of designs, environments, styles, and features to suit backyards and budgets of all sizes. We maintain a comfortable and honest family atmosphere that includes our knowledgeable staff and certified technicians.

THE OBJECTIVE

Pools of Fun was frustrated with the inconsistent and low-quality connectivity at all five of their stores. They had aging equipment, which led to frequent, costly downtime at each location. They needed a partner who was technologically savvy and who provided resources to every location. Since their locations were actual stores, and they were a point of sale type of company, each time a location was down cost them in both resources and money.

When Van Ausdall & Farrar met with Pools of Fun, they saw there was a need for newer equipment, upgraded firewalls, and improved infrastructure. They worked with Pools of Fun to set up a plan that would give them the capabilities to run their stores without service interruption.

THE STRATEGY

After Van Ausdall & Farrar assessed the areas in which Pools of Fun most needed help, they utilized various strategies to make important changes. Managed IT Solutions, Cloud Solutions, and Networking Solutions all played a critical role in bringing Pools of Fun’s five locations a much-needed technology enhancement.

Van Ausdall & Farrar also increased the level of connectivity to the Internet, and the company’s home office. Pools of Fun could now operate smoothly with fewer downtime disruptions, meaning they could serve their customers well.

THE RESULTS

With the new equipment and strategies solidly locked into place, Pools of Fun no longer has to deal with extended downtimes that affect their sales. Each new project runs effortlessly and they do not have to worry about the security of their data.

The increased efficiency has been a game-changer for Pools of Fun. Thanks to Van Ausdall & Farrar, they have the resources they need to keep up with the demands of a growing business.
